Key West, Florida has always been a unique place, full of natural beauty, fascinating history, fabulous characters – and for three months beginning in March of 2020, under quarantine from the COVID-19 virus, another strange and eerily beautiful island emerged...

This 352 page, limited edition book, produced as a fundraiser for Sister Season Fund, Inc., and its crucial COVID-19 relief efforts, showcases some 350 images taken during Key West's COVID-19 Spring of 2020, as seen and experienced by more than two-dozen Key West photographers.
